C AND D -AND CHALLENGED CREDIT

We generally require two to one collateral coverage. That is to say that if we are doing a \$50,000 lease, there must be \$100,000 in collateral (including the sale value of the leased equipment).

If we are comfortable with the collateral, then we are not overly concerned with standard credit analysis tools such as FICO scores and financial ratios. However, we must be comfortable that the company intends to – and has the wherewithal – to continue in business.

Feel free to call us to review your financing needs. Together we can find structures to satisfy your borrowing needs that allows you to purchase the equipment you need for your business

Additional saleable collateral always required.

First and security deposit (one additional month) required in advance.

Additional security deposit may be required for credit reasons.
