MerchantCard is Your Ongoing Access to Cash

Along with issuance of a convenient **MerchantCard**, you will be setup with a new merchant account to facilitate the payback process while your business continues to accept credit cards as a form of payment. If you already accept credit cards, your rates and fees will remain the same while your **MerchantCard** account will provide you with the Financing and Security you need to grow and support your business. A **MerchantCard** Account is also essential for every business owner to build business credit as we automatically report the positive payback to Dun & Bradstreet, Experian, and Nexus Lexus.
